MOPO®

A collection of MOPO smart toilet products displayed against a black background. At the top center is the MOPO MP-807 smart toilet cover, which is white with a black base and a control panel on the left. To the right is a white one-piece toilet. Below the main image are four smaller images of different models: MP-U8 (top left), MP-V8 (top right), MP-U9 (bottom left), and MP-V9 (bottom right). Each model shows the white seat cover with its respective base and control panel.

- The material thickness of the support body is 2.0mm and the thickness of the toilet support plate is 3.0mm. The self-weight of the bracket is 10.2kg which can bear more than 400kg weight. The thickness of baking paint reaches 159 microns, with strong corrosion resistance.
- The panel is made of ABS engineering plastic with novel styles and various colors to choose.
- The main body of the water tank is made of Saudi HDPE high-density material which is blow-molded at one time, without welding seam to avoid the hidden danger of water leakage.
The styrofoam outside the tank can keep the water tank warm in low-temperature weather, and prevent the surface of the tanks from condensation at high temperature, to avoid the tiles paved on it from falling off.
- The sewage pipe made of PVC or HDPE is optional, which has strong corrosion resistance to ensure the strength of the installation.
- The sewage pipe made of PVC or HDPE is optional, which has strong corrosion resistance to ensure the strength of the installation.
- The height adjustment range of iron leg is 0~200mm, it is suitable for the installation of descending board type bathroom.

The inlet and outlet valves are made of imported POM and ABS which are resistant to high pressure and durable. The service life is more than 200,000 times. Seal rubber is made of silica gel and EPDM material which is non-toxic and environmentally protection.
